I LOVE THIS LOOK because I enjoy mixing and matching different styles of furniture and accessories. I love the juxtaposition of the sparkling crystal chandelier with the rustic desk and cosy, wool rug. A few touches of gold accents add glamour and sophistication to the room.

HOW TO CREATE THIS LOOK Combine rustic materials like wood and iron with gold and crystal elements for a touch of glamour.

I LOVE THIS LOOK because it combines the intricate beauty of crystal and glass with bold and masculine colour. The variety of textures found in the office with the throw cushions, artwork, and faux fur carpet create a feeling of warmth.

HOW TO CREATE THIS LOOK Mix elegant pieces with a bold colour and a variety of textures. My inspiration was the office I designed for a model home, at the Peyton, by Kylermore Communities.
