CANADIAN INTERIOR DESIGNER AND FURNITURE MANUFACTURER PARTNER TO MAKE LUXURY, SUSTAINABLE FURNITURE AND DONATE TO WORLD WILDLIFE FUND CANADA.

TORONTO, ON, Jan 27, 2011--- Jane Lockhart, Interior Designer, B.A.A.I.D, Intern A.R.I.D.O. and Gresham House Furniture Manufacturing have partnered to design and manufacture the all-Canadian **Jane Lockhart Platinum Series** in Mississauga, Ontario.

Jane Lockhart of **Jane Lockhart Interior Design** in Toronto has been designing interiors and furniture for 19 years and is the popular celebrity designer who hosts W Network’s top rated *Colour Confidential* and HGTV US’s, *Get Color*. Launching at the 2011 Interior Design Show (IDS) January 27-30, Jane has partnered with Gresham House, a leading Canadian manufacturer of fine furniture, to produce the **Jane Lockhart Platinum Series**. (*Visit Booth #2315 to see the Jane Lockhart Platinum Series*)

Available to designers across Canada, this exclusive collection of luxury, sustainable upholstery pieces includes five classic styles that will work beautifully in the finest modern or traditional interiors. Each piece features solid Canadian hardwood frame construction, Canadian goose feather or down fill, eco-friendly foam and two frame depths. Styles include the Clooney, Heath, Manchester, Robson and York. All pieces are available as chairs, demi-sofas, full sofas and sectionals.

“Canadians have great style and make great furniture,” says Lockhart. “Gresham House was a natural choice to manufacture the **Jane Lockhart Platinum Series**. The company is well known in the design industry for making 100% Canadian fine quality, sustainable furniture with no limit to the amount of customization available.”

Marilyn Roberts, Principal of Gresham House says, “Gresham House is proud to produce the Jane Lockhart Platinum Series and look forward to offering Jane’s exclusive luxury line to our discriminating designers. Like Jane, we are also committed to high quality and sustainable design. We believe this new collection proves you can have both.”

A donation will be made to WWF-Canada from the sale of each piece from the **Jane Lockhart Platinum Series**. “By making a donation to an organization like WWF-Canada, together Jane and I are further supporting the environment and understand the importance giving back wherever possible,” says Marilyn.

Jane and Marilyn firmly believe that by corporately supporting the environment and committing to the production of high-quality, sustainable Canadian-crafted products, designers and consumers will begin to look for home-based, Canadian-made products. By understanding the benefits of buying local we can all make a profound, positive impact on our environment.
